## **DETAILED ACTION**

### ***Claim Objections***

1. Claims 8 & 14 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:  
  
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
3. Claim 5 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

What is the relationship between the magnets of this claim(s) & claim(s) 1?

### ***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-17 are rejected under 35 U.S.C. 102(a) as being anticipated by Shen et al. (6,644,637), substantially as applied on 1/28/05.
6. Claims 1-17 are rejected under 35 U.S.C. 102(a) as being anticipated by Sotonyi (3,624,799), substantially as applied on 1/28/05.

***Claim Rejections - 35 USC § 103***

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claims 18-22 are rejected under 35 U.S.C. 102(a), or 102(b) as indicated above, as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over either Shen et al. (6,644,637) or Sotonyi (3,624,799).

Both Shen et al. (6,644,637) and Sotonyi (3,624,799) either disclose(s) or suggest applying the disclosed pallet system in an assembly line.

It would have been obvious to modify Shen et al. (6,644,637) or Sotonyi (3,624,799) to provide/substitute an assembly line in order to increase efficiency.

***Conclusion***

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

10. Regarding the applicant's remarks, the examiner offers the following response.

With regard to page 12, there is nothing that precludes applying the retaining bar of Sotonyi (3,624,799) first, before laying down the workpiece, thus constituting a pre-form defining a position of stanchions.
